

META SHIBBA

WHITE PAPER >

INTRODUCTION

Integrate Meme Doge into Metaverse

Metaverse is the future of technology, where its applications are leveraged around the world and strongly developed in the cryptocurrency world.

Many dog meme coins have been launched after Dogecoin like Shiba Inu and Akita, but none of them have had the power like Meta Shiba to integrate both Metaverse approach and Shiba Inu popularity into a strong and promising community of the future. Meta Shiba is headed to the new stage of the cryptocurrency world, and we will be the leader within time.

A wise man by the name of Elon Musk once said: "Who controls memes, controls the Universe", and Meta Shiba will be happy enough to make the world beautiful with the power of the memes. Meta Shiba is a part of Metaverse and Shiba Inu growth, with the strong hyper-deflationary system to reward holders and P2E mechanism. Trust, hold and watch \$METASHIB grow everyday
